

18th Century "Conder" tokens, the \$35 list!

FIVE printable pages-----

Each token on this list is \$35. They can be broken down into the following categories:

1. Common tokens, very nice EF grade.
2. Better tokens, GVF-EF.
3. Scarce to Rare tokens, VF-GVF.
4. Pieces that are AU or better with a small problem.

In some cases, the pieces are better than the grade given, but have some sort of problem that bring it to this price level. Usually the problem is very small, but exists, and it cannot be sold for a higher price on one of my lists. Problems will be noted, but for the most part tokens priced at \$35 are quite decent examples and have good eye appeal. Others are lower grade but are scarcer types, often rare to extremely rare.

OVERALL THESE ARE NICE SOLID EYE APPEALING PIECES.
